

ARC ONLINE LEARNING

WHAT DO WE DO?

ARC has been providing learning opportunities and consulting services to the leaders and management of residential communities since 2008. This learning has now evolved into our ARC Online Learning, as we embrace the rapid advancement in technology that is shaping our everyday lives.

Learning online has become easy, it is cost-effective and can fit into your schedule anytime and anyplace. It allows you to work through the course at your own pace and to experience and apply the learning in your own way, as it is relevant to you.

The approach we have chosen is a 'blended' one, where structured digital input is provided in the form of recorded sessions, animated images, relevant documentation, links to extra resources, summaries, activities, and quizzes etc. as well as live online facilitated discussions and Q & A sessions which will consolidate the learning and application to your specific role on your estate.

WHAT MAKES OUR COURSES WORK?

- We provide credible, up-to-date industry-focused content that is applicable to the operation and management of homeowner's associations and bodies corporate.
- We utilise experts in various fields to provide relevant input.
- Each course includes live follow-up support sessions at agreed points in the learning process where you can engage with experts and other course participants.
